DEDICATION

I dedicate this book solely to The Lord Jesus Christ, who by The Holy Spirit granted unto me access into certain spiritual truths and mysteries in the prophetic which I know were beyond my normal range of sight to be able to understand, comprehend and document for the benefit and edification of all. I also want to dedicate this book to everyone that so desire to function in the prophetic, and to those that care so much to have an understanding of how the prophetic functions and influence the earth from the heavens. The prophetic and vision have never been exclusive, preserved for a few elites, it is a realm that is open to all by God. *The Prophetic Language* is a manifestation that all are called into in God. May you not be excluded from the manifestation and functioning of the prophetic in our day and time!

Blessings to you all!
Philip Cephas

ACKNOWLEDGMENT

I thank The LORD for all those sacrificial servants who have upheld my arms as we continue with endurance to run the race that is set before us. I also want to thank the pioneers who have gone before us in exploring the dimensions of the prophetic and vision. Where would we be without them? Books and sermons have always been my mentors—so thanks to all those who laid the foundation that we get to build upon. Lastly, I want to thank my dear family and friends. I am truly grateful to The Lord for such family and friends who love The LORD and desire to see His kingdom come on the earth.

PROPHETIC LANGUAGE

PROPHETIC LANGUAGE

Have you ever been to an artist's studio before? You will realize that pictures and paintings have a language they communicate, mostly the language of emotions and feelings. Language is a means of communication that has no known accurate approved origin. I believe that people, creation and things are born with a language and a means of communication by default.

You may not hear an animal talk to you, but animals do communicate with each other in a language that they understand. If you must communicate to something that is not in your own realm of creation, then you will have to use the language of that realm. Language is given to creation according to the realm or form they are created to operate in by God. The realm or form of humans, animals, celestial, microscopic and many others. Every creation of God has a language of communication.

Language is a means and a tool for communication for proper relation between beings in the different realms and spheres. We can use it to express an intention, motive and/or desire. Some are visible while

others are not such as feelings. Trying to find the origin of language is like trying to rediscover how God created the very beginning. There is surely a beginning to everything ever created by God, but since our knowledge is limited, we cannot categorically give an accurate explanation of the origin of language or which is the first language on the earth. Nevertheless, every creation of God has a language of communication.

I believe that there was a time when people spoke only one language on earth. As far as we can remember, when God created Adam and Eve in the Garden of Eden, they had only one language, until the tower of Babel. I do wonder what language God spoke in Genesis chapter 1 that led to the creation!

The first time there was a speaking in the book of truth was the speaking of God in Genesis chapter 1 which led to the creation of the Earth. The language used was the language of God and we have little understanding of it, but it has to be supernatural. I believe there are many languages ranging from that of men and humans to angels and spirits to the celestial beings and bodies and that of other creations. It is written that even creation groans and sings praises to God. When Jesus Christ walked the earth, he spoke to creation ranging from the element of nature to the plants and weather patterns. We also saw through scriptures how many prophetic people spoke to celestial bodies and elements of nature to work on their behalf, these creations adhered to them and obeyed. The creation must have heard their voices as they spoke.

I believe that there are many languages and one was the creation language while others were given by God to people at the tower of Babel. Overtime, language has evolved and man in his intelligence has created more languages. There is yet another language that is supreme to all which is the language of light. This 'light' as a language is a personality that causes creation. This language is the summation of all languages. All creation no matter the sphere understands this language when it is being spoken to. I believe it is the same language that prophetic people of old used to speak to the elements of nature and to celestial bodies.

God is light and light as a language speaks of illumination and revelation. Light has been the tool of creation from the very beginning. God used Himself to create! Almost every creation of God has a component of God in it. The angels and celestial beings are created from light as well as the starry bodies. Man has an element of light in him. Everything that has ever been created in the heavens and the earth has God in it in the person of Christ Jesus, The Light.

Hath in these last days spoken unto us by his Son, whom he hath appointed heir of all things, by whom also he made the worlds.

Hebrews 1:2

There is a realm that you can operate from which gives you the power to speak to any creation of God through light and revelation. Your natural language may not be truncated, but that spiritual supernatural language that God puts in all His creation is activated when we ascend into that realm. No wonder in spiritual encounters, you don't speak with your mouth, but communication is done by spirit via the language of light!

When you reveal light, you immediately have knowledge of truths and realities in God because God is light and everything moves in life for His glory. When you are caught up into the realm of the spirit, you just realize that another dimension of you switches on. It lights up like Jesus Christ on the mount of transfiguration. We have another of our nature that is light that lies within us, it takes the revelation of God to reveal and express that in us.

We carry revelation and truth when we radiate light which is why we are called the children of the living God. What makes God living is because He gives life to whatsoever He comes in contact with! The nature that Jesus revealed on the mount of transfiguration is the true spiritual nature of a son that represents and reveals God. No wonder a voice spoke from heaven confirming His Sonship and Lordship over all. We also have come into that nature and sonship through grace in Christ Jesus. The scripture says that God made His angels winds, but His ministers a flame of fire. John the Baptist was referred to as a burning and a shining light in his days. We all carry a similar nature of

light as Jesus Christ radiated on the mountain top. We do business in the spirit realm from that reality of light within us.

When you are caught up in the spirit realm seeing a tree or any creation that exists within that sphere, if you so desire to know more about it, approach it and the nature of light in you takes in itself the ability to relate and understand that creation. The language of communication in the spirit realm is majorly light and revelation. This is embedded in every creation of God. We can relate with them when we engage them from that reality and nature of light.

Since the language of God is light and revelation, and everything He created came from light as He spoke from the beginning, 'let there be light,' then everything living and non-living sustained some degree of light in itself. It is true that in the spirit realm, all things are living and nothing is non-living because God who is the living God gives life to whatsoever is within His reach.

Hebrews 1 gave us an understanding that God upholds all things by the word of His mouth not by the frame and structure on the earth. God put creation in place as He created them and the elements of nature are given their proper position to function. This creation hears the voice of God spoken via the language of light, that is why after many eons, they still obey God and keep His ordinances daily. You will never hear that the sun refuses to shine or the moon or the stars got tired of doing that which they were created for.

Do you realize that the trees in the Garden of Eden were not just ordinary trees, but trees that are living and carrying life in them! This is why they had trees like, the tree of the knowledge of good and evil and the tree of life. The trees in the garden has a life form and a knowledge of God within them. Everything in the spiritual realm has a life form and a knowledge embedded in it.

Have you ever had an encounter before of seeing animals and plants as part of the creation of the spirit realm? These plants and animals are living and sustain some degree of knowledge in them. You will be amazed to see some of them speaking to you and revealing certain counsels to you. All the creation of God works for His glory,

whether living or non-living because all have a spiritual nature that can be revealed by light and revelation. People do have encounters in the spirit realm seeing eagles, lion, ox, goat, birds, snakes and many more animals. Some see trees and different vegetation. These things are seen living in nature with life and realities in them that can impart knowledge. No wonder the trees and river in the Garden of Eden had spiritual nature, truths and realities beyond the normal.

When Adam was to name the creation of God, through light and revelation, he was able to name each creation by having the understanding and knowledge of what each creation entailed in the heart and mind of God. The language of light and revelation is supreme and ultimate to all language, but for proper communication and relationship between different spheres and realms, God gave His creation diverse languages according to their realm of operation. He gave animals a language, plants another language, man another language and as many other creations so that they can communicate with each other appropriately. Human beings are the most complicated creation of God and we are created to explore other creations. We sustain a higher ability in God and He gave us the potential to procreate under Him.

Humans were created with a single language, but with the potency to procreate other languages as God permitted. Man was able to permutate and combine many languages to create another resulting to different cultures and traditions. When we trace back to the point of the division of the languages of the human race on the earth from Babel, it seems as if God was so interested in the division when men began to desire to be gods sustaining the wisdom of God, but He preferred man to be unified.

Nimrod was an evil ruler and a hunter of the souls of men in his time. His mother was a witch who killed his father and married her son who became king in the place of his father. This propagation of darkness granted him an alliance with the devil who gave him the wisdom and deception to begin the building of the tower of Babel in rebellion to God. The tower was meant to reach the heaven and challenge God's authority over man. How can a mortal man imagine to

begin a building that will reach the heaven? What architectural design and civil engineering structure could achieve such a dream? That kind of a dream and thought must have been inspired by the devil, knowing fully well the enormous capacity and potentials that God has put in man and that it will be possible if all mankind can join together combining all their potentials. Nimrod was a world leader, the whole earth was under him and if he can be deceived by the devil, then all of mankind was under his mercy. The devil was able to deceive and influence him. Since he is feared by all, all men obeyed him, yielding to his devilish dream of building the tower that will reach the heavens.

At that time, the whole earth spoke one language and Nimrod mobilized all the men of the earth to focus all their resources to build the tower. By the bond of unity and the power of oneness, they were making good progress. If God had not intervened, they would have succeeded. A people united with one language, goal, aim and vision can achieve anything regardless of the circumstances.

God in His wisdom devised an effective and excellent solution to their madness. Since they all had one language, goal and aim, division was the only solution. Even Jesus said, "No house divided against itself shall stand." Nothing can be achieved by a group of people if they are not united in mind. God decided to scatter their languages which was one of their major source of unity and oneness. After their language has been divided, their desire, aim and vision also became divided. This resulted to a heavy confusion in the camp because they could not communicate effectively with each other. When a man was asked in the camp to bring water, he hears another thing in the other language that God gave him and when another is asked to do a thing, he hears another different thing entirely. None of them were able to comprehend each other in the camp as each had a different language that can't be understood by the other. It became even worse in the camp because all had different desires for the moment which divided their focus and mind. Therefore, not all had the desire to build the tower. All that were summoned by the king to come work returned back to their nations and lands to go fulfil the desire they had in their heart.

The kingdoms and empires of Nimrod became divided and

destroyed. Another civilization begun with different tribes, languages and nations. The migration of people resulted in the formation of countries and new nations of people sharing similar values, culture, tradition and languages. No nation was born in a day, it took time.

Our today's world is composed of people with different languages, although each nation may have an official language that is widely recognized, but there are so many minority languages with their own cultures and traditions in the country. These languages may not be known globally, but they are worthy of note and spoken by a people. The influence of languages on us is as a result and product of our place of origin and parents.

The language we speak is gotten from the environment we grew up in. If you were born in a city that speaks a particular language and practices a specific culture and tradition, then by default that becomes a part of you as you grow up into maturity. If you speak Spanish today, it is either you were born from the lineage of the Spanish people or you grew up among Spanish people or you decided to study and learn the Spanish language.

In the same sense, there is a culture and tradition for the prophetic. This is the *modus operandi* which God uses in dealing with prophetic individuals. The language of the prophetic is one part of the culture and tradition of the prophetic. It is a means of communication that has been in operation between God and His prophets for centuries. It is true that the language of communication of God is light and revelation, but there is a way that light and revelation comes to prophetic people that is what is called prophetic language.

God uses the prophetic language to communicate His speaking and counsel in wisdom to His prophets. This language may not be familiar to someone who is not of the same culture and tradition of the prophetic. Language can be acquired, but the culture and tradition always influences the individual the most. A person that belongs to the same culture of the prophetic will always have an understanding of the prophetic speaking of God. You can learn the language of the prophetic overtime if you remain and grow within the cultural system and tradition of the prophetic.

When you don't learn the language of the prophetic, you will find it hard to comprehend the speaking of God in your life. The speaking of God is in mysteries and light, it takes a heart that is open and equipped enough to perceive such speaking on a consistent basis. God has been speaking to many people over time, but as a person that is a stranger to a language, they cannot understand and comprehend His speaking in their lives.

If you have not learnt Arabic or Hebrew language before, the day the language is spoken to your hearing, you will definitely not understand what is said. You are not able to understand the language because you were not taught it and it is not part of your culture, tradition and civilization overtime. The same applies to the prophetic speaking of God. Even if you were able to hear and perceive the prophetic speaking, you will not have an understanding or a good comprehension of what God is saying. What you don't understand will have little or no effect on your life. There are different means by which God uses to communicate and talk to us and all of them require some degree of light and revelation for us to comprehend Him.

The Holy Spirit must be your close and permanent companion if you must have an absolute understanding of the speaking of God. The Spirit of God will relate the speaking of God to you in the language you can understand even if it means Him breaking it down to English language for you to understand. I consider The Holy Spirit in this context as the language converter and interpreter and He will guide you and direct you at all time. Learn to lean on Him as God speaks to you, so that He will always break it down to a language you are familiar with. The children of Israel heard God from Moses, but Moses heard directly from God. You can also hear the speaking of God from His Holy Spirit of truth.

Pictures and Shapes

Every picture has an intention and every shape has something it is communicating and revealing. A painter that paints a picture has an intention in his mind that he wants to communicate, as well as an emotion and feeling he is revealing. As a prophetic individual, your encounters will be filled with picture, symbols, signs, numbers and

shapes. Each of these have prophetic significance in the spiritual realm and God uses them to communicate to prophetic people often.

When you keep seeing a picture in an encounter repeatedly, then God must be trying to communicate something to you that requires your careful attention. I do have encounters where I see lots of pictures, shapes and numbers in different patterns in the spirit realm. This confused me for a while until I realized that each has its meaning in relating with God. The meaning to each may not be constant and it may not be literally related to what you saw.

God speaking are mainly in signs and pictures. He always loves to give you a sign that reveals and points us to something else. It is now left for us to follow that sign until it reveals to us the realities that lies in the realm it is pointing to. We must have to study the consistent speaking and pattern of God, and master those signs and pictures so that we don't miss the season and timing of God in our lives.

The prompting of The Holy Spirit in seasons and times can be in a language of sign and number. God can give you an encounter showing you a date in number combination and a picture of a symbol of a location to go. A sign will always point you to something, so also a symbol represents something other than itself. It is like the shadow of a reality. Every sickness and disease has a sign and a symptom that points to the illness itself. When you understand the sign and symptom, you can discern the sickness and/or disease.

These are some of the signs in the spirit: loss of peace, constrain in the spirit, an intuitive knowing and a perception to do a thing, etc. All these are a sign by The Holy Spirit to guide you aright in your journey into God. Signs, symbols and pictures are a common experience to people that pray always in the spirit. As you pray, your mental faculty is influenced by God and you begin to see pictures and symbols.

Lots of people know when there is a release of an anointing on them such as, shaking of the hands, the shaking of a specific finger, a feeling of a hot sensation on the palm, head and back, a feeling of the release of oil on their palm, heaviness of the heart, pain on specific part of the body and burning sensation in the eyes, and lots more. These

dealings and prophetic languages are personal to many people and their meaning varies and differs from each individual.

These unspoken signs of The Holy Spirit are a prompting for a function or an alert to perform a function. When these promptings and signs are neglected, it leaves a sense of guilt on you. Personally, when praying and I feel a burden in my heart, I know that I have to pray for someone that is in trouble. If the prayer is in a group, then the person is either present or absent. But as I discern the prompting and focus on praying for the unknown individual, a vision or a revelation can be given by God of the person so that I can now pray with much more understanding.

The feeling of pain is common with many people. If you are ministering in a network of people and you feel a spontaneous pain on a part of the body of which you know was not there before that moment, someone in that place may be afflicted in that part needing healing. Spontaneous pain in any part of the body during a ministration needs to be accurately discerned so as to properly disseminate the gift of healing. There are times when I feel a headache as if my head will blow up, I know that there is some kind of demonic activity and spiritual warfare that is going on in the spirit realm. As a spiritual man that governs that sphere, my spirit is conscious and aware of the transaction in the spirit. Demonic spirits are trying to build a resistance against my access to God on a matter. A burning sensation on my back especially the top of my back is mostly an indication of the presence of an angel of The Lord that stands by me. The degree of light and strength I feel helps me discern the category of the being and its operation, whether to strengthen me or to give me revelatory insight and revelation. There are many other signs such as: the electrifying of the hands, uncontrollable cry, joy, sadness, a loss of peace in the heart and many more. When you feel something and it happens repeatedly without you comprehending it, you must seek to know it by asking The Holy Spirit for the meaning so that you don't miss out in what God wants to do due to ignorance.

Symbols and Numbers

There are symbols and numbers that are prophetic and a part of the prophetic language of God in relating with us which are common. Just as a sign and a symbol will always point you to something else whenever you see it, these symbols and numbers also pointers and refer you to something different entirely. I do have dreams where I see symbols and numbers of which I wonder their meaning. There is nothing that God will show you for fun! It must be pointing you to something, or revealing a truth about something that God wants you to do.

Sometimes, God hides His messages and instructions in symbols and numbers, so that we can decipher them as a prophetic people. The revelation of the numbers and symbols may be personal to you. I have been deciphering many of the symbols and numbers given to me by God in dreams and visions lately. Mostly God gives you the dates of events, and timings of happening or a symbol of something He will want you to get involved in or a symbol that symbolizes and personifies something else in a city.

You may have a dream seeing 12082016, this may look like a number in random but by revelation, The Holy Spirit will let you know that it is a date to watch or observe or do something else. 12082016 is the same as 12/08/2016 that is how simple it is. You may also see yourself walking toward a symbol of an eagle, lion, horse, sword or anything, this may look confusing, although it may be a symbol of a company or a logo of an organization that God wants to connect you with. Instead of saying go to so organization, He can just decide to show you their logo and give you a date and a time. Like you can see a lion logo, and 23122015 and 0130. The numbers may be 23/12/2015 and 01:30 pm/am.

This speaking of God is not complicated at all except you refuse to be guided by the revelation of The Holy Spirit which is why you have to maintain a close relationship with The Spirit of God. Many people have encounters and see numbers, symbols and even colours and they lack the understanding of these encounters. This month, a friend of mine came to me with a design of a logo that he did which he said he

saw in a dream. God began speaking to him about a business He wants him to establish and an assignment that will carry such a logo. It was so awesome! The same Spirit of Truth that gave you that encounter has the revelation in Him. If you can only ask in prayer, He will reveal it to you.

Pictures and colours are also uses by God to speak to His people, you just have to open your heart and be vast in your spirit for God to speak to you in that manner. That speaking can only profit you if you have understanding of the prophetic language of the spirit. I have seen colours and pictures in my encounters and lack understanding to them until The Spirit of God revealed to me their meaning. Every colour has a meaning in the spirit as revealed by The Holy Spirit to you. Pictures like eagle, lion, and ox can signify foresight and vision or boldness and strength. Lamb and crown can mean meekness and humility, royalty and kingship.

This complex prophetic manifestations and experiences are common to prophetic people. The aim is not to have the experiences, but also to have an understanding of it. The revelation is what brings the impartation and causes the functioning and manifestation in your life. You may be praying for a meeting and suddenly you have a pictorial glimpse of the meeting which is to tell you that the meeting will occur and God has it at heart.

I know a friend that studied architecture while in school. He does have strange downloads of design patterns that don't make sense to him because it goes against their normal curriculum for the session, but those downloads are not from the soulish realm. They may not make sense, but are prophetic design patterns for a structure that God may want to construct on the earth. Your duty in all this is to obey God and embrace His release, then ask The Holy Spirit for the revelation overtime. Moses had prophetic downloads of the structural design pattern for the temple of God and it came to him in pictures, numbers and symbols. The design he had was also given to another person anointed by God with a prophetic unction to fulfil the purpose of God. I have a friend that see codes and formulas that has never been seen and revealed to anyone before. He gets confused about the meaning of what he always sees. When I took a look at those formulas and codes, I

realized that they were all patterns and structures for a design that will form the foundation of a new technology yet to be invented.

It doesn't matter what God reveals to you, even if that language of the prophetic is new to you, pray that The Holy Spirit gives you revelation, insight and understanding to them. God never does anything for fun, He does it for a function. You may be perplexed about it now, never lose faith and focus because when it is the time for the revealing of it to the earth, understanding will be given to you and you will be amazed at what you document under God.

Past prophetic individuals had series of encounters where they saw events and pictures of element and things. The common periodic table was first discovered in 1869 by Dmitry I. Mendeleev. He saw elements and said that those in the same column (group) of the table as usually arranged have similar properties. In the 20th century, when the structure of atoms was understood, the table was seen to precisely reflect in increasing order of atomic number. Members of the same group in the table have the same number of electrons in the outermost shells of their atoms and form bonds of the same type, usually with the same valence. The noble gases with full outer shells, generally do not form bonds. The periodic table has thus greatly deepened the understanding of bonding and chemical behaviour. It also allowed the prediction of new elements many of which were later discovered or synthesized.

This man that discovered the periodic table once said that he often to dream at night seeing elements arranging themselves in order, with numbers and properties specific to each. Do you realize that he was not just having a dream, but a dream that changed the whole scope of science? There are people that are called to be frontiers and pioneers of some new discoveries on earth. These people may not be found within our conventional church and ministry, but they are surely prophetic in God.

A prophet was asked by God what he saw in the scripture, and he said that he was seeing men like trees until he was positioned to see aright. What he saw at first was the initial, but there is a deeper light and revelation to what God wanted him to see apart from men as

being trees. So also what you see that has no meaning to you now; has a better meaning in God, why not look again from the eye vista of The Holy Spirit you will see clearly.

And this is the writing that was written, MENE, MENE, TEKEL, UPHARSIN. This is the interpretation of the thing: MENE; God hath numbered thy kingdom, and finished it. TEKEL; Thou art weighed in the balances, and art found wanting. PERES; Thy kingdom is divided, and given to the Medes and Persians.

Daniel 5:25-28

In the kingdom of Babylon what everyone saw as MENE, MENE, TEKEL, UPHARSIN was beyond just a word written in a foreign tongue, it was actually a judgment and a decree by God. Only a prophetic individual that has an understanding of the language of the prophetic was able to decipher it for all to comprehend the speaking and the decree of God. Joseph also had dreams of seeing the sun, moon and the stars bowing down to him and he gave the interpretation to his family. They didn't believe him until it came to past.

Whatever you keep seeing in whatever prophetic language that God chooses to speak to you must have a better reality than what you just imagined it to be. Why not pray that The Holy Spirit reveals to you what it entails and if it be of evil because of your love for God it will not hurt you. If it be for good because of that same love for God, it will come to pass in your life. Your love for God will always repel evil around you, but attract the good of God.

Many people believe in a lie from the devil about their dreams and revelation. Don't let the devil deceive you that what you see is evil as long as you love God and desire the prosperity of His kingdom, He will not permit evil to befall you. May God help you to comprehend His prophetic language and speaking as He communicates with you in your prophetic journey into Him. Amen.

Shalom!!!

ROADMAP FOR A WEARY SOJOURNER

This manuscript is likened to a compass employed by a spiritual sojourner to journey to the desire destination without being weary and tired, lacking the strength, passion, zeal, courage, and the understanding to press further into the realm of light and life.

PATHWAY TO THE ANOINTING

Pathway to the anointing is not just a product of a research done in the flesh, but a personal dealing of walking with The Holy Spirit over time which has resulted to a smearing of the anointing upon my life by God.

VISION OF A GREAT PEOPLE

The vision of a great people is a life story and a fiction of a family who has been helped by God and still being helped by Him. Among many systems of God expansion upon the face of the earth, a man is pivotal.
